Gridless Transport Carts

Charge Load and Go!

GTH12

GTH120

The ultimate transport carts

You call it Cordless we call it GRIDLESS™!

CARTER-HOFFMANN

The heating system operates the same ON or OFF the grid

Operate on traditional wall or battery power. Heating elements, fans and controls produce active heat for hours when unplugged. Bright LED displays can be adjusted for outdoor or indoor light.

GTH12

Heated Transport Carts

- Ergonomic handle with roller latch and transport latch
- Ergonomic push handles on each end
- All stainless steel construction with full perimeter bumper and wheel-ahead caster pattern for easier transport over thresholds
- 120 plate capacity*

When you eliminate canned fuel, Gridless™ will pay for itself in no time

Don't get burned by the high cost of canned fuel! If you use chafing fuel to keep your carts warm, you burn cash with every meal!

4 cans per cart at $2.82 each x two meals /day = $22.56 per day

$22.56 per day x 365 days = $8234.40.40 PER CART in one year!

**Four hour cans of Sterno™ brand Hot Spot Superwick, 24 per case at average price of $67.68/case (internet source in November 2016)*

*Download specification sheets for full details.
