Units require two power outlets and two drains
Units are multiplexed and joined together
in the center – 100" and 120"

STANDARD FEATURES

- Coated evaporator coil
- Integrated, non-removable heavy-duty ice pan
- Stainless steel frame, interior and rear work bench
- Silver colored PVC coated steel front panel
- CFC free injected foam insulation
- Black steel kick plate
- Foamed polystyrene black end panels
- Tempered tilt forward front glass
- Removable rear tempered glass sliding door
- LED lighting in canopy
- Temperature and defrost regulated by a digital controller
- Slide out condensing unit on self-contained units
- Anti condensing system for front glass
- Digital thermometer
- Levelling feet

OPTIONAL FEATURES

- Stainless steel exterior
- Other colors available
- Joining Kit
- Partition
- Scale stand with receptable
- Cutting Board
- Knife Support
- Casters add 4-3/8" to height
- Stainless steel legs are adjustable from 5-1/8" to 7-5/8"

WARRANTY

One year parts and labor with an additional four years on the compressor (part only)

NOTE

These cases are engineered to operate in locations not exceeding 75°F and 55% R.H. These cases are designed to operate using R404a refrigerant. Alternate refrigerants available by special order. O.A. length includes (2) ends at 1-7/8" each. Ventilation grills at front and back cannot be blocked. B.T.U's are calculated at 14°F (evaporator) and 90°F (ambient). Remote cases are provided with an expansion valve and a liquid solenoid for pump down cycle. Remote cases must be hard wired-no plugs.
