

CS-100

HEATED CARVING STATION

CS-100/S

- HALO HEAT . . . a controlled, uniform heat source radiating heat directly from the carving shelf surface.
- Fixed lamp assembly provides additional heat to the product surface for greater ambient surface temperature control.
- Proper and safe serving temperatures maintained without additional cooking.
- Shelf surface is recessed to catch drippings.
- Sanitary cutting board with gravy lane is completely removable. NSF and USDA listed.
- Designed to fit on top of a HALO HEAT Cook & Hold Oven, Heated Holding Cabinet, or suitable for placement on any surface.
- Clear glass customer breath guard easily slides in place and meets new NSF breath guard specifications.
- Low energy usage.

CS-100 heated carving station is constructed with 18 gauge stainless steel and includes one (1) ON/OFF power switch and one (1) indicator light. Heated shelf base is controlled by one (1) three position toggle switch for LOW/MED/HIGH heat. The 250 watt infrared heat lamp is controlled by one (1) ON/OFF switch. The exterior has a recessed surface to catch drippings and is furnished with one (1) set of 1" (25mm) legs and one (1) 13-3/4" x 16" x 1/2" (349mm x 406mm x 13mm) cutting board. It is available with or without a clear glass breath guard that is framed and easily slides into place.
